WHO WE ARE

Company Overview

Hala Freight Company is a Saudi-based international freight forwarding and logistics provider, headquartered in Riyadh and licensed by the Ministry of Investment (MISA). We move cargo by sea, air and land across the Kingdom, the wider GCC and worldwide — and we manage everything around the cargo: regulatory registration, customs clearance, documentation, warehousing and final-mile delivery.

Our operating model is built for the demands of Vision 2030-era supply chains. Global carrier and agent partnerships give our clients competitive capacity and dependable transit times, while deep local expertise in Saudi Customs, FASAH, ZATCA, SABER and SFDA requirements keeps consignments compliant and clear of avoidable delay, demurrage and re-work. Every account is handled through a single accountable point of contact, supported by a structured operations team and documented shipment milestones from booking to proof of delivery.

We serve multinational corporations, government and semi-government entities, EPC contractors, manufacturers and traders — organisations for whom predictability, transparent pricing and audit-ready documentation matter as much as the freight rate. The company is a fully licensed Saudi limited liability company with a paid-up capital of SAR 1,000,000, registered with the Ministry of Commerce, the Ministry of Investment (MISA) and the Zakat, Tax and Customs Authority (ZATCA).

Beyond freight — a complete logistics system. Most forwarders move cargo. Hala manages the full shipping ecosystem: freight, regulatory compliance, documentation, clearance, storage and distribution through one trusted partner.

Our Vision

To be the freight and logistics partner of choice in Saudi Arabia — recognised for reliability, regulatory command and service that consistently exceeds expectation.

Our Mission

To deliver seamless, compliant and cost-effective end-to-end logistics that keep our clients' supply chains moving with certainty, visibility and care.

Our Values

- Integrity & transparency
- Compliance without compromise
- Accountability, end to end
- Safety of every consignment
- Partnership over transaction

HOW WE OPERATE

Operating Standards

Governance & Compliance

Every shipment file is prepared to withstand audit — correct HS classification, valid certificates of origin, and alignment with ZATCA, SABER and SFDA rules.

Safety & Cargo Care

Vetted carriers and drivers, export-grade packing, and cargo insurance on request — so sensitive consignments arrive as they left.

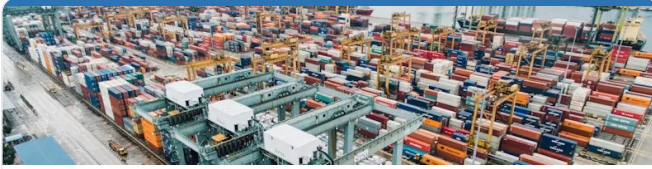

Reporting & Visibility

Documented milestones from booking to proof of delivery, with status updates and periodic performance reporting for contracted accounts.

WHAT WE MOVE

Our Services

One partner for the full journey of your cargo — from first mile to final delivery, by sea, air and land, with the compliance and storage capability to match.
